

# Cyclones SLV Collars Clamps

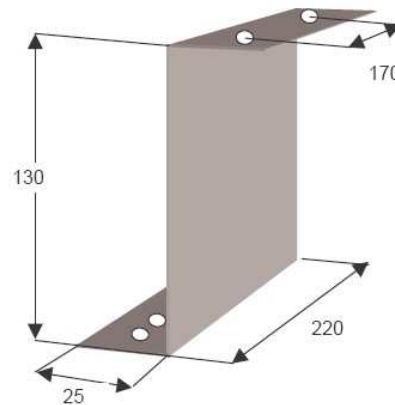

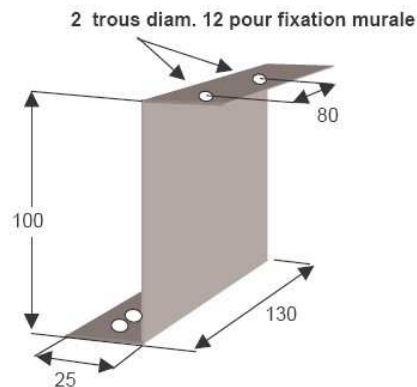

Separation : Liquid/Solid  
Accessories  
Vertical Cyclones  
Collars Clamp

2 colliers inox par séparateur

MODELE A POUR SEPARATEURS  
DN 10 (3/8") A DN 40 (1"1/2)  
ref.:CDF1040

MODELE B POUR SEPARATEURS  
DN 50 (2") A DN 80 (3")  
ref.:CDF5080

The cyclones are hanged against a vertical surface by means of two stainless steel support clamps and two clamping rings made of also stainless steel.

The use of two separate clamping rings allows free rotation and positioning of the cyclones and brings easy positioning of their inlets.

These fixation accessories are provided as options.
